# Product anatomy

COMFORT MEMO
ANTI-FATIGUE TECHNOLOGY

It took 5 years for ROCKROOSTER to develop patented anti-fatigue insole technology to relieve foot fatigue caused by long-term walking.

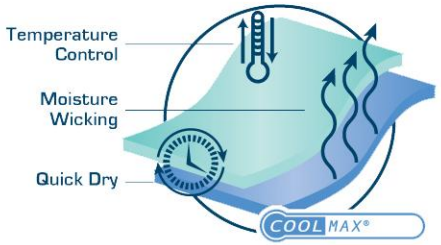

HydroGuard® waterproof

The membranes are covered in billions of microscopic pores, giving the laminate its unique waterproof-breathable properties. Water droplets are too large to pass through the membrane,but let small water vapor molecules escape.

poronXrd® extreme impact protection

It is a memory foam cushioning material developed by Rogers Corporation, which can remember the initial shape and provide continuous fit and long-lasting comfort for the feet.

It is a high-functional textile with a special fiber moisture management system, which can quickly evaporate the heat, making you feel cool and comfortable when you wear them.

CUSHIONING POLYURETHANE FOAM

**PU**

Injection molding process, good adhesion, not easy to fall off

**RUBBER**

Rubber non-slip outsole for enhanced grip
